

US EPA TSCA Declaration of Conformity

APEM, Inc. hereby declares that, to the best of our knowledge, our products are compliant to US Environmental Protection Agency Toxic Substances Control Act (US EPA TSCA) Section 6(h) which restricts use of the following chemicals:

- **Decabromodiphenyl ether (DecaBDE):** A flame retardant in plastic enclosures for televisions, computers, audio and video equipment, textiles and upholstered articles, wire and cables for communication and electronic equipment, and other applications.
- **Phenol, isopropylated phosphate (3:1) (PIP (3:1)):** A plasticizer, a flame retardant, an anti-wear additive, or an anti-compressibility additive in hydraulic fluid, lubricating oils, lubricants and greases, various industrial coatings, adhesives, sealants, and plastic articles.
- **2,4,6-tris(tert-butyl) phenol (2,4,6-TTBP):** An intermediate/reactant in processing, and is incorporated into formulations destined for fuel and fuel-related additives;
- **Hexachlorobutadiene (HCBD):** A chemical used as a halogenated aliphatic hydrocarbon that is produced as a byproduct during the manufacture of chlorinated hydrocarbons.
- **Pentachlorothiophenol (PCTP):** A chemical used to make rubber more pliable in industrial uses.

Our affiliate companies in the UK and in France, the manufacturing locations for APEM switches and LED indicators have declared that these substances are not used in the manufacturing of these products.

We will continue to survey our supplier base inquiring about the existence of these chemicals, receiving Declarations of Conformity from our main suppliers. Should we discover that any of these substances exist within our supply chain, APEM, Inc. will notify the affected parties.

Should you have any further questions, please do not hesitate to contact us.

Sincerely,

Michael J Blumena
Quality Manager, APEM Inc.
